

August 18, 2017

President Donald J. Trump
The White House
1600 Pennsylvania Avenue, N.W.
Washington, DC 20500

To President Trump:

Thank you for leading on so many important issues ranging from appointing strong judicial picks for confirmation to beginning to undo the regulatory assault on our nation's energy producers as well as re-establishing enforcement of our nation's various trade agreements and withdrawing from the Trans-Pacific Partnership. We also greatly appreciate your efforts to refocus the military away from social engineering and back to its core mission of protecting America's interests in the face of pressures from within and outside the Administration, as well as the exceptional efforts by your Department of Justice to begin enforcing the law of the land against those who would subvert it.

These are just a few of your many accomplishments during your short tenure in office. While the media buffets your presidency on a daily basis, we take comfort in knowing that Steve Bannon and Kellyanne Conway are both ably working for you to assist you in weathering these unfair attacks and keeping your agenda front and center.

While others may come and go in the White House, we feel sure that with Steve and Kellyanne at your side, you will always hear the voices of those of us who have supported you through thick and thin, despite the efforts by some to "manage" you and your message.

It is important that the Trump Administration keep its promises on immigration policy. It is important that trade policy and future trade deals are built around America's interests and not those of multi-national corporations who have lost their way. It is important that our nation's defenses become better focused, as well as better equipped, after almost sixteen years of non-stop war. It is important that the hope you created for many Americans who had given up on a better economic future for themselves and their children continue to be prioritized with policies designed to reinvigorate our nation's infrastructure and overall economy.

And it is important that those who have been your staunchest supporters know that they are not being drowned out by the Swamp which, due to its nature, seeks to engulf the White House. Steve Bannon and Kellyanne Conway provide that assurance that you will always have people close to you who support your vision – and ours – for this great nation.

Sincerely,

Star Parker
