October 15, 2021

U.S. House of Representatives  
Washington, DC 20515

Dear Representatives:

Americans for Limited Government supports legislation by U.S. Rep. Diana Harshbarger (R-Tenn.) and U.S. Sen. Marco Rubio (R-Fla.), the “Treatment Restoration for Emergency Antibody Therapeutics” (TREAT) Act,<sup>1</sup> which will stop President Joe Biden’s bid to ration life-saving Covid monoclonal antibody treatments to states with lower Covid vaccination rates.

The legislation will soon be introduced and we urge Representatives who wish to cosponsor to contact Rep. Harshbarger’s office, and to take a stand against Biden’s Covid treatment rationing. The federal government mustn’t play politics with patients’ lives based on blue state and red state rivalries.

The Biden administration’s job is to facilitate access and distribution of medical and pharmaceutical supplies amid the Covid pandemic, whether its drugs, tests, ventilators, masks or anything else, not to restrict it, potentially endangering patients’ lives who now might not get the treatment they need.

Every Senator should follow the first principle of Hippocrates: Do no harm. Please support the TREAT Act to support protecting lives above all and to put an end to Biden’s political Covid treatment rationing.

Sincerely,

Robert Romano  
Vice President of Public Policy  
Americans for Limited Government
